Comment noted. The proposed action does not cause an increase in housing stock or the number of students; so there is no adverse impact on local schools.

Comments:*I see no evaluation of the impacts of any future development of this site upon the school district. Any future housing would normally generate additional students requiring services. Also there are the transportation issues associated with getting bus service to this site for student transportation if required. This affects both the Public Services portion and the Transportaion component.

Submitted comments are considered a public record and subject to public disclosure.

Comments can also be made at a public hearing regarding the DPEIS held before the City of Monroe Planning Commission on Monday, March 13, 2012 at 7:00 PM. The hearing will be held in the Council Chambers at 806 W. Main Street, Monroe.
