Project Information

Construction for the City's Smith Street & Park Street Utility Replacement Project is about to begin. Work will commence on April 16, 2018. The contractor completing the project is McCann Construction Enterprises, Inc.

As a reminder, this project consists of upgrading the water and sewer mains on Park Street from Monroe Street to Pike Street and on Smith Street from South Kelsey to the end of the road.

Please be advised that traffic flow on both Smith Street and Park Street will be impacted during construction. The contractor will have flaggers onsite assisting traffic in and out of the construction zone but residents could experience minor delays in their commutes. Please plan accordingly. Residents will be encouraged to park their cars along South Kelsey when work is occurring along Smith Street.

Your patience and cooperation is greatly appreciated!
